29 JAN 1951

MEMORANDUM FOR: DIRECTOR OF INTELLIGENCE
HEADQUARTERS, UNITED STATES AIR FORCE

SUBJECT: Transfer of the "Intelligence and Investigation Laboratory" to the Central Intelligence Agency.

References:

- a. Memo for the D/I, USAF, from DCI, dated 13 April 1950, subject as above.
- b. Memo for the DCI from D/I, USAF, dated 19 May 1950, subject as in Reference a, above.

1. Since the assumption of the responsibilities as outlined in Reference b, it has come to the attention of this Agency that a suitable channel has not existed for the discussion and solution of problems in the field of special equipment for the support of military intelligence and counter-intelligence programs.

2. It is therefore requested that you designate a liaison officer to meet with my representative in this field, together with representatives of the other two Services. A meeting will be called for this purpose as soon as all designations have been received.

3. Although the original agreement was drawn with the Directorate of Intelligence, USAF, it is known that the Office of Special Investigations, USAF, is vitally interested. It is therefore assumed that USAF representation will cover both organizations.

Signed

WILLIAM H. JACKSON
 DEPUTY DIRECTOR OF
 CENTRAL INTELLIGENCE
